25X1	3.	No official border crossing point existed between the Polish and Soviet zone in the Goldap area, nor any such points in other sectors of the border. Illegal border crossing from the Soviet to the Polish zone frequently occurred during the first few years after World War II, but apparentally ceased in recent years. Railroad service from Goldap to Darkelmen (R 55/V 63) and Gumbinnen (R 55/V 75) was discontinued and the tracks were torn up near Goldap. Goldap was, however, still connected with Trauburg (S 55/A 99) by rail. *									nt=
